

"DO OR DIE"

TX LEGISLATURE UPDATE

If we all DO these 3 things the bad anti-neighborhood bills will likely DIE in committee.

1

Submit House Public Comment Forms for bills in hearings this week

First, visit <https://comments.house.texas.gov/> and fill out your contact information.

Second, search for the bills this week by entering the bill number and clicking the  button

The bills this week are:

HB 4637 - Effectively removes our ability to petition zoning changes because the threshold would become impossible to meet.

HB 3135 - Forces governing bodies to repeal or amend any regulations that interfere with the production of new housing.

HB 2665 - Authorizes a study into STR's "positive" aspects to lay groundwork for more bad STR bills in 2025.

Third, leave a brief comment such as:

"I oppose this bill which harms homeowners and neighborhoods by removing local controls and property right protections. We have worked hard to make a home and life for our families. I urge you to vote against this harmful bill."

When finished, hit the  button. You can submit one comment form per bill.

Call & Email the House Land & Resource Management Committee

You can use (or copy/paste) this message - or tell your own story:

"I oppose ALL following anti-neighborhood bills that are in your committee: HB 2198, HB 3921, HB 2665, HB 4637, and HB 3135. I ask that you vote against these bills as each harms home owners and neighborhoods by removing local control, neighborhood protections, and property rights."
